MEMORANDUM FOR: Committee on Overhead Reconnaissance

SUBJECT: Request for Revision to Tab I of "Schedules for Duplication and Distribution of Film" (COMOR-D-34/21)

1. Attached is an Army request for a revision of Tab I of COMOR-D-34/21 to accelerate the production of "holiday" maps. This will be on the COMOR agenda for decision on 24 December.

25X1

3. Preliminary information on the delivery time saved by placing AMS in Priority 1 suggests that this would be a saving of approximately 32 hours. However, this figure could work out to over 50 hours, dependent on other factors such as whether 8- or 12-hour shifts are worked. The normal delivery time for Priority 1 is 60 hours.

4. Whereas it appears that this is a desirable and significant saving of time in the production of the "holiday" maps, it is requested that at the 24 December meeting of COMOR (S) NRO be prepared to report specifically on what the promotion of AMS to Priority 1 will mean to those presently scheduled to receive photography under Priority 2. At present the receipt of primary photography under Priority 2 is as follows:

25X1

1. The Army Map Service is encountering difficulties in providing the [] NRO with the most recent Holiday Maps in time to meet [] NRO programming schedules for KH-4 missions. The primary difficulties stem from the delay in receipt of the KH-4 film at AMS from EK, resulting in crash-type night and week-end production operations to meet the (S) NRO deadlines.

25X1

3. Current indications are that future scheduling may make this problem even more acute under current film distribution priorities.

4. In view of the foregoing, it is requested that COMOR-D-34/21 TAB I (Revised) be revised as follows:
